VELIKA SMJENA STRAŽE

Ceremonija Velika smjena straže, u kojoj sudjeluju pripadnici Počasnozaštitne bojne Oružanih snaga Republike Hrvatske održava se na Gornjem gradu u Zagrebu, na prostoru između Banskih dvora i crkve Sv. Marka na Markovom trgu. Polazak smjene je iz prostora Banskih dvora, a druga grupa kreće se iz Kuševićeve ulice i Ćirilometodskom ulicom. Ceremonija se izvodi subotom, blagdanima i praznicima, a u slučaju loših vremenskih uvjeta, pogotovo jakih oborina, ceremonija se ne izvodi. Ceremonija počinje točno u podne pucnjem gričkog topa s kule Lotrščak. U tom trenutku počinje glazbena uvertira, uvod koji izvodi glazbena pratnja. Ukupno trajanje ceremonije je 10-15 minuta, ovisno o tempu izvođenja glazbene pratnje. Velika smjena straže može se pogledati sve do 8. listopada.

OD BANA JELAČIĆA DO GORNJEGA GRADA

Mjesto okupljanja građana, ali i svih turističkih tura je kip bana Jelačića, odakle je vrlo jednostavno doći do svih važnih znamenitosti

SREDIŠNJA gradska znamenitost je zagrebačka katedrala. Smještena je na Kaptolu i njezini su tornjevi prepoznatljiva vizura grada. Preko Trga bana Josipa Jelačića dolazi se do katedrale, živopisne tržnice Dolac, a šetnja se nastavlja prema Gornjem gradu kroz nekoliko pravaca, a na vama je da odaberete onaj koji vam najbolje odgovara.

SANDRA ŠIMUNOVIĆ/HANZA MEDIA

ZAGREBAČKA KATEDRALA

Katedrala Uznesenja Blažene Djevice Marije i svetih Stjepana i Ladislava ili zagrebačka katedrala, najveća je hrvatska sakralna građevina i jedan od najvrjednijih spomenika hrvatske kulturne baštine. Crkva na istoj lokaciji postoji od 1093. godine, a gradnja sadašnje crkve počela je u 13 stoljeću.
Zadnja velika rekonstrukcija napravljena je na prijelazu iz 19. u 20. st., a tornjevi se u etapama obnavljaju do danas. Crkva je otvorena za turiste, može se razgledati u svako doba dana, a nekoliko puta dnevno u njoj se održavaju mise na hrvatskom jeziku.

NAJKRAĆA USPINJAČA NA SVIJETU

Uspinjača za Gornji grad najstarije je prijevozno sredstvo organiziranoga javnog prijevoza putnika u Zagrebu. Povezuje Donji grad s Gornjim svakim radnim danom, subotom, nedjeljom i praznikom od 6.30 do 22 sata, a do danas je u cijelosti zadržala prvobitni vanjski izgled i građevnu konstrukciju te većinu tehničkih svojstava koja su joj dali graditelji 1890. godine kad je otvorena. Polazak je svakih deset minuta, a cijena jedne vožnje je 5 kuna. U usporedbi s ostalim žičanim željeznicama koje su namijenjene javnom prometu, s prugom dugom 66 metara, najkraća je na svijetu.

MARIJA JURIĆ ZAGORKA

Neustrašivi borac za ljudska prava, prva novinarka u Hrvatskoj oduvijek je bila ispred svog vremena. Poznata je po ljubavnim romanima s elementima nacionalne povijesti, a kip je djelo Stjepana Gračana.

BORIS KOVAČEV/HANZA MEDIA

BAN JOSIP JELAČIĆ

Glavni gradski trg ime je dobio po kontroverznom kipu koji je zbog ideoloških razloga gotovo 50 godina izbivao iz Hrvatske.Ban Josip Jelačić vodio je bitke protiv Mađarske, a njegov kip je podignut još 1866. godine.

ANTUN GUSTAV MATOŠ NA NAJLJEPŠEM ŠETALIŠTU

Sigurno najfotografiraniji spomenik u gradu je onaj Matoša s pogledom na Donji grad. Rijetko koji turist će proći kraj njega bez da sjedne do njega, zagrli ga i posluša razmišljanja jednog boema. Kip je djelo Ivana Kožarića.
Antun Gustav Matoš bio je hrvatski pjesnik, a iako je pisao i prozu, najpoznatiji je po svojim poetskim djelima poput "Samotna ljubav", "Djevojčici mjesto igračke", i "Utjeha kose". Matoševeva skulptura upravo je zato 1978. godine postavljena na Strossmayerovo šetalište, jedno od najljepših i najromantičnijih zagrebačkih šetališta. Matoš na klupi danas je vrlo čest gost na turističkim fotografijama i popularnim 'selfie' fotografijama jer svatko tko prođe pokraj Matoša želi s njime sjesti i pogledati grad Zagreb i zabilježiti taj trenutak.

TRŽNICA DOLAC

Stotine uzgajivača hrane iz Zagreba i okolice svakodnevno na štandovima tržnice Dolac, smještene samo nekoliko koraka od glavnog gradskog trga, prodaju svježe voće, povrće, meso, sir i vrhnje, cvijeće...

KRALJ TOMISLAV

Spomenik prvom hrvatskom kralju nalazi se na istoimenom trgu. Kipar Robert Frangeš Mihanović izradio je konjanički spomenik 1938. godine, ali je zbog dugotrajnih polemika i Drugog svjetskog rata spomenik postavljen tek 1947. godine.

RONALD GORŠIĆ/HANZA MEDIA

ŠETNJA GORNJIM GRADOM

GORNJI GRAD uvriježen je naziv za staro-gradsku jezgru Zagreba. Zagreb se neka-da dijelio na dva dijela - Gradec i Kaptol.

Gradec je bio povišeni dio grada te se u njega ulazilo kroz četiri gradska vrata od kojih su danas ostala samo Kamenita vrata te kula Lotrščak na mjestu gdje su neka-da stajala južna gradska vrata. Ako želite upoznati po-vijest grada, nezaobilazan je odlazak na Gornji grad gdje morate posjetiti Crkvu svetog Marka prepoznatlji-vu po svojim crepovima. Zapalite svijeću na Kameni-tim vratima i nikako nemojte u podne stajati ispod kule Lotrščak jer će vas iznenaditi pucanj Gričkoga topa.

CRKVA SV. MARKA

Slikovita crkva sv. Marka jedna je od najstarijih građevina u Zagrebu i jedan od njegovih simbola, a prepoznatljiva je po svojem krovu sastavljenom od šarenih crepova. Crkva post-oji od 13. stoljeća, no njezin poznati krov znantno je mlađi – dobila ga je prilikom posljednje renovacije u drugoj polovici 19. stoljeća. Krov prikazuje grbove hrvatskih regija, Dalmaci-je i Slavonije na lijevoj strani, te grb grada Zagreba na des-noj. U interijeru se nalaze tri oltara kipara Ivana Meštrovića, Kljakovićeva sakristija oslikana od poda do stropa, a u njoj se često održavaju i orguljaški koncerti.

CRKVA SVETE KATARINE

Crkva svete Katarine najpoznatija je hrvatska barokna crkva. Smještena je na Trgu Katarine Zrinske, podignuta u sklopu nekadašnjeg isusovačkog kompleksa na zagrebačkom Gornjem gradu. Građena je 1620. do 1632., a u njezinih šest bočnih kapela nalazi se pet drvenih baroknih oltara iz 17. stoljeća, te jedan mramorni oltar iz 1732. godine.

NEJA MARKIČEVIĆ/HANZA MEDIA

LOTRŠČAK

Kula je sagrađena sredinom 13. stoljeća kako bi se štitila južna gradska vrata, a kroz povijest je bila i stambeni prostor, i skladište, i kavana... Turisti mogu uživati u spektakularnom pogledu na grad s vrha kule, posjetiti izložbu ili u suvenirnici kupiti lokalne proizvode. Na četvrtom katu nalazi se Grički top koji se javlja Zagrepčanima svaki dan točno u podne. Prvi se put top oglasio na Novu godinu 1877. Tijekom Prvog svjetskog rata bio je zaboravljen, a oglasio se ponovo tek 1927. s južnog prozora četvrtog kata odakle se javlja i danas točno u podne.

DAMJAN TADIĆ/HANZA MEDIA

KAMENITA VRATA

Jedan od najbolje očuvanih spomenika starog Zagreba jedina su sačuvana gradska vrata starog obrambenog sustava. Sagrađena su u 13. stoljeću, a svoj današnji oblik dobila su 1760. godine. U prolazu vrata smještena je kapela sa slikom Majke Božje od Kamenitih vrata, zaštitnice grada, koja je prema legendi neoštećena preživjela veliki požar 1731. godine.

ZELENA POTKOVA

LENUCIJEVA potkova naziv je za gradsko središte prepoznatljivo po nizu trgova i perivoja. Naziv je dobila po urbanistu Milanu Lenuciju

Zelena potkova obuhvaća čak sedam gradskih trgova - Trg Nikole Šubića Zrinskog, Trg Josipa Jurja Strossmayera, Trg kralja Tomislava, Trg dr. Ante Starčevića, Trg Marka Marulića, Trg Ivana, Antuna i Vladmira Mažuranića te Trg Republike Hrvatske, a pridružio im se i Botanički vrt PMF-a.

DAMJAN TADIĆ/ HANZA MEDIA

ZRINJEVAC

Jedan od najljepših "zelenih" gradskih trgova, Zrinjevac, nalazi se u samom srcu Zelene ili Lenucijeve potkove. Zrinjevac je omiljeno okupljalište mladih, ali i mnogobrojnih posjetitelja grada Zagreba koji se na ovom trgu žele odmoriti i uživati u njegovoj ljepoti. Zrinjevac se sastoji od trga i perivoja s alejom platana. Trg Zrinjevac poznat je po glazbenom paviljonu koji je na tom mjestu postavljen 1891. godine. U ljetnim večerima na Zrinjevcu se održavaju svirke i plesnjaci.

Trg Nikole Šubića Zrinskog oduvijek se naziva Zrinjevac, a prepoznatljiv je po glazbenom paviljonu

HRVATSKO NARODNO KAZALIŠTE

Jedna od najimpresivnijih zgrada u Zagrebu svakako je neobarokna zgrada HNK, remek-djelo kasnog historizma austrijskog arhitekta Ferdinanda Fellnera i njemačkog arhitekta Hermanna Helmera. Otvorena je 1895. i ima kapacitet za 750 gledatelja, a posjeduje jedan željezni i sedam oslikanih zastora koji se postavljaju u različitim svečanim prigodama. U njemu djeluju tri umjetnička ansambla: drama, opera i balet. Ispred HNK se nalazi jedna od najljepših gradskih fontana koja je djelo poznatog kipara Ivana Meštrovića.

2

MIMARA

Nezaobilazna građevina i muzej koji morate posjetiti jest Muzej Mimara koji se nalazi u neposrednoj blizini Hrvatskog narodnog kazališta. Zbirka Muzeja Mimara obuhvaća zbirku umjetnina koju je sakupljač Ante Mimara donirao hrvatskim narodima u Zagrebu 1973. godine, pod uvjetom da se trajno prikazuje. Uz umjetnine koje je darovao Mimara, Muzej izlaže i djela mnogih umjetnika i organizira različite događaje.

Mirogojske arkade najfotografiraniji su detalj Zagreba u proljeće i jesen kada ovaj spektakularni zid prekrije "zeleni omotač"

NAJLJEPŠI PARK I NAJVEĆA GALERIJA NA OTVORENOM

Mirogoj nazivaju jednim od najljepših groblja u Europi, a mnogi mu se posebno dive zbog arkada s kupolama koje je podigao Herman Bollé, graditelj mirogojskog groblja, još 1917. godine

NAJPOZNATIJE I NAJVEĆE ZAGREBAČKO GROBLJE MIROGOJ SPOMEN JE HRVATSKE PROŠLOSTI, ali je Mirogoj ujedno i predivan park i umjetnička galerija na otvorenom. Mirogoj je oduvijek bio zanimljiv turistima zbog velikog broja znamenitih osoba hrvatske povijesti koje su pokopane upravo na ovom groblju, poput Marije Jurić Zagorke, Ljudevita Gaja, Augusta Šenoe, Stjepana Radića, Dražena Petrovića i mnogih drugih, ali i zbog vjerske tolerancije - to je mjesto na kojem su se oduvijek poštovale sve religije.

Najpoznatiji dio Mirogoja definitivno su veličanstvene arkade. Njihov autor je Herman Bollé, koji je uvelike utjecao na izgled grada, ali i Mirogoja. Groblje Mirogoj otvoreno je 1879. godine, a graditelj Bollé ubrzo nakon toga počeo je raditi na arkadama. Gradnja arkada dovršena je 1917. godine. Iako je prvotna zamisao graditelja bila da se arkade protežu oko cijelog groblja, završeno je samo 20 kupola.

Arkade, kao i cijelo groblje Mirogoj, danas slove kao muzej na otvorenom, a upravo zbog toga Mirogoj nazivaju jednim od najljepših groblja u Europi. Također, zbog velikog broja poznatih i utjecajnih osoba koje počivaju na Mirogoju naziva se i hrvatskim panteonom. Turistička zajednica grada Zagreba objavila je brošuru o Mirogoju, koja se može preuzeti na njihovim internet stranicama, a napravili su je upravo zbog velikog broja turista koji su htjeli posjetiti Mirogoj.

„Bolléove mirogojske arkade sa središnjom kupolom i brojni vrijedni spomenici istaknutih hrvatskih kipara danas predstavljaju pravu umjetničku galeriju na otvorenome, dostojan izraz poštovanja prema nezaboravnim korifejima hrvatske misli, umjetnosti, znanosti, zanata i sporta te mnogih manje znanih koji tu počivaju. O tome svjedoči i članstvo Mirogoja u Udruzi značajnih grobalja Europe, mreži koja objedinjuje groblja od posebna povijesnog i umjetničkog značaja i koja promiče groblja kao temeljni dio ljudskog nasljeđa. Mirogojsku 'galeriju' obogatili su i brojni arhitekti, umjetnički obrtnici i slikari“, stoji u brošuri. No pravi dojam o zaista veličanstvenoj arhitekturi može se steći tek dolaskom na ovo najveće zagrebačko groblje.

Kako doći do Mirogoja?

S Kaptola voze autobusne linije:

ZOOLOŠKI VRT, ŽIVOTINJSKO SRCE ZAGREBA

Nekoliko novih nastambi, restoran i uređene šetnice privući će velik broj posjetitelja da provedu cijeli dan u ZOO vrtu. Ne propustite posjetiti dom u kojem živi gotovo osam tisuća životinja

Maksimir je "narastao" od stare kamene kule, poznate kao "začarani dvor", smještene na malenom otočiću usred maksimirskog jezera, u kojoj su živjele tri lisice i tri šumske sove, do suvremenog multimedijalnog, istraživačkog i turističkog kompleksa koji se prostire na 7 hektara. U njemu su danas 7974 životinje o kojima brine 74 zaposlenika. To je sažeta kronologija razvoja zagrebačkog Zoološkog vrta koja traje 91 godinu, a kulminirala je završetkom prve faze modernizacije prije nekoliko godina; opsežnim radovima na infrastrukturi i nastambama što je koštalo oko 40 milijuna kuna. Riječ je o najvećem građevinskom pothvatu u povijesti Zoološkog vrta koji se u parku Maksimir otvorio 1925.
Sagrađen je moderan restoran vidikovac Rov sa solarnim panelima i zelenim zidom od 500 živih biljaka, golema volijera za afričke ptice u koju će posjetitelji moći ući, dok će stotinu ptica letjeti oko njih. Tu je i novi glavni ulaz s kamerama i brojačem posjetitelja, pomoćni istočni ulaz, kao i trostruko veća suvenirnica s tristotinjak autohtonih suvenira, još jedan edukativni centar, a kotlovnica na lož ulje postala je ekološka kotlovnica na pelete. Sagrađena su dva mosta, restaurirani spomenici kulturne baštine - Napuljski ribar te Lavlji most koji krase četiri nove kamene statue lavova na kojima se svako dijete želi fotografirati.
Prostrana Lavlja stijena Kidepo apsolutni je favorit među posjetiteljima ZOO vrta, nova nastamba za svjetski ugrožene crvene pande i prostor Madagaskara. Na Labuđem otoku, koji je odnedavno spojen Darwinovim mostom, postavljen je splet konopaca za penjanje, tzv. paukova mreža, trampolini i klupe te ležaljke, a u šetnji Zoološkim vrtom možete provesti sate. Preporučujemo posjet ZOO vrtu radnim danom jer se vikendom stvaraju velike gužve na samom ulazu.

POSJETITE SAMOBOR, SLIKOVIT I ROMANTIČAN GRADIĆ

SAMOBOR JE ODLIČNO MJESTO ZA BIJEG OD GRADSKE VREVE TE SE NALAZI TEK 30-AK KILOMETARA OD ZAGREBA. KADA STE U SAMOBORU, PROBAJTE NAJBOLJE KREMŠNITE U DRŽAVI I PROŠETAJTE NAJLJEPŠIM ŠETALIŠTEM U GRADU

Slikoviti gradić smjestio se na istočnim obroncima Samoborskog gorja, na ulazu u romantičnu dolinu potoka Gradne. Srednjovjekovni je to gradić, sa oko 15.000 stanovnika, barokne arhitekture, koji okružuje široki planinski vijenac, od Okić-grada, preko Plešivice, Oštrca, Velikog Dola, Lipovca i Japetića do Žumberka. Značajne sakralne građevine nalaze se u najužoj gradskoj jezgri. Župna crkva sv. Anastazije spominje se već 1334. godine, a današnja je crkva podignuta između 1671. i 1675. godine. Građena je po uzoru na isusovačku crkvu sv. Katarine u Zagrebu, s ranobaroknim i manirističkim stilskim karakteristikama. Na prelijepom središnjem samoborskom trgu, Trgu kralja Tomislava, svaka je zgrada zaštićeni spomenik kulture prve kategorije. U blizini grada nalazi se Anindol, najljepše samoborsko šetalište na brdu Tepec. Samoborsko gorje dio je Žumberačke gore i smatra se kolijevkom planinarstva. Do uređenih planinarskih staza iz grada se može doći kratkom šetnjom.

PROLJEĆE JE IDEALNO VRIJEME ZA ISTRAŽIVANJE ZAGREBAČKE GORE

IAKO PREKRASNA U SVAKO DOBA GODINE, U PROLJEĆE MEDVEDNICA PRIVLAČI NAJVIŠE POSJETITELJA. DIVNA PRIRODA, MIR I SVJEŽI ZRAK DJELUJU OPUŠTAJUĆE NA SVAKOG ŠETAČA I PLANINARA

Sljeme (1033 metra) najviši je vrh Parka prirode Medvednica koji se prostire na više od 22 tisuće hektara, a najpoznatiji je po skijaškoj stazi na kojoj se održava utrka svjetskog skijaškog kupa Snježna kraljica. Manje je poznato da se tijekom cijele godine na toj planini nadomak Zagreba može uživati u mnoštvu povijesnih i prirodnih znamenitosti.

Do Sljemena vodi asfaltirana cesta, koja počinje kod Blizneca i završava kod Tomislavova doma blizu vrha, kao i mnogobrojne pješačke staze. Na samom vrhu, pokraj skijaških staza, nalazi se restoran Vidikovac s kojega se pruža lijep pogled prema Hrvatskom zagorju. Poseban doživljaj je penjati se pješke do Sljemena i to planinarskom stazom 14, dugom 6,3 kilometra, poznatijom pod imenom Leustekova staza, koja je najpopularnija i najlakša. Tramvajem broj 15 s Mihaljevca se dolazi do predzadnje stanice Gračani.

Zatim se kreće prema sjeveru na Medvednicu. Nakon odmorišta šumski put ide dalje prema vrhu, dva puta presijeca asfaltiranu sljemensku cestu, pred sam kraj staze prolazi pored sljemenskog zdenca i dolazi do Stare lugarnice, Doma "Željezničar" i na koncu do Činovničke livade na vrhu.

Do Sljemena se može doći i stazom broj 14, koja većim dijelom ide paralelno s Leustekovom, ali je strmija, pa zahtijeva malo više kondicije.

DRAGO SOPTA/HANZA MEDIA

UTVRDA SAGRAĐENA U 13. STOLJEĆU S KOJE SE PRUŽA NAJLJEPŠI POGLED NA GRAD

Utvrda sagrađena u 13. stoljeću nakon provale Tatara nalazi se na jugozapadnom obronku Medvednice na visini od 593 metra, s koje se pruža najljepši pogled na Zagreb. Medvedgrad je dao sagraditi 1250. godine zagrebački biskup Filip, a svrha joj je bila obrana Kaptola i biskupskih posjeda. Oko 1260. godine kralj Bela IV. povjerio je utvrdu knezu Stjepku Šubiću, a potom je davana na upravu hrvatskim banovima. Tvrđava je teško oštećena u potresu 1590. godine, pa su je 1602. napustili njeni posljednji stanovnici. Godine 1994. podignut je spomenik svim hrvatskim junacima - Oltar domovine, a danas se vikendom održavaju razni sajmovi i koncerti. Tijekom stoljeća o Medvedgradu su nastali brojni mitovi i legende, a najpoznatija je ona o opakoj Crnoj kraljici i zakopanom blagu.

KAKO DOĆI?

JAVNI PRIJEVOZ/PJEŠICE: Autobusna linija 128 Črnomerec - Lukšić, pa pješice od Lukšića preko Himpera asfaltnom cestom do Medvedgrada. Linija 102 Mihaljevac - Britanski trg, do Šestinske crkve, nastavak slijedi planinarskom stazom 12 od Lagvića do Medvedgrada.

AUTO: Od Lukšića preko Himpera, od Himpera do Medvedgrada jednosmjernom asfaltnom cestom, a povratak ide jednosmjerno od Kraljičina zdenca do šestinske crkve.

ŠPILJA VETERNICA

ŠPILJA U KOJOJ SU NEKAD ŽIVJELI MEDVJEDI, LAVOVI I HIJENE, ALI I LJUDI

Sa čak 7127 metara je peta najduža u Hrvatskoj i značajno je arheološko i paleontološko nalazište, udaljeno samo 9 kilometara od centra grada.
Prepuna je fenomena koji se rijetko viđaju u klasičnim turistički uređenim špiljama, od erozijskih vrtložnih oblika, pješčanih dina, pa do pronađenih ostataka izumrlog špiljskog medvjeda, lava, leoparda, hijene, nosoroga, pragoveda, golemog jelena, fosila školjki i morskih ježinaca, a nađeni su i zubi morskog psa. U njoj su živjeli i ljudi, što dokazuju su ostaci alata neandertalaca te modernog čovjeka.

KAKO DOĆI?

PJEŠICE: Planinarskom stazom koja vodi od Gornjeg Stenjevca do Veternice i obližnjeg Planinarskog doma Glavica, a dugačka je samo 3 kilometra.

BUS: Linijom broj 124 za Gornji Stenjevac s okretišta na Črnomercu. Pristupni put špilji ide dolinom potoka Dubravica planinarskim putem broj 3, a traje oko 20 minuta.

AUTO: Po Aveniji Bologna na zapad, u Gajnicama skrenuti desno u Ulicu Dubravica, nastaviti Zelenom magistralom, pa od Ponikvi do planinarskog doma Glavica, a zatim nizbrdo planinarskim putem broj 3 stiže se za 5 minuta do špilje.

RUDNIK ZRINSKI

BORIS KOVAČEV/HANZA MEDIA

RUDNIK IZ KOJEG JE IZLAZILO 10 TONA RUDE DNEVNO DANAS JE SAMO ATRAKCIJA

Kralj Matija Korvin dodijelio je 1463. godine grofu Petru Zrinskom kraljevsku rudarsku povlasticu koja njemu i njegovu potomstvu omogućava da na svim svojim posjedima otvore rudnike zlata, srebra i drugih kovina. Ta povlastica omogućila je Zrinskima rudarenje na Medvednici, na području "Rudarskog vrta". Potomak Petra Zrinskog, Nikola, potpisuje 1527. godine ugovor sa Zagrepčanima koji im daje pravo na rudarenje. Tada otpočinje povijest rudarstva u Rudniku Zrinski. Procijenjeno je da je dnevna proizvodnja rudnika iznosila 10 tona rude u kojoj je bilo oko 5 kg srebra. Računa se da je dnevno radilo oko trideset rudara. Postoje mnoge legende i kazivanja koja govore o tajnim hodnicima koji vode od Rudnika Zrinski do Medvedgrada te do Crkve svetog Marka na Gornjem gradu.

KAKO DOĆI?

PJEŠICE: Od Šestinskog Lagvića poučnom stazom Miroslavec do Kraljičina zdenca, potom prijeći asfaltnu cestu i nastaviti planinarskom stazom 1M.

BUS: S Mihaljevca za Tomislavov dom.

AUTO: Sljemenskom cestom do planinarskog doma Grafičar.

SLAP SOPOT

Stijena po kojoj se spušta slap visoka je 9 metara, pa je ovo i najveći slap na Medvednici, na skrovitom mjestu do kojega se može doći markiranom stazom od Gornjeg Vrapča do izvora Družinec na romantičnoj čistini s klupama odakle je moguće krenuti lijevo prema Ponikvama ili desno prema slapu Sopot. Put se dalje penje kroz gustu i vrlo lijepu šumu, a zatim se strmo spušta do šumske ceste koja uz potok Vrapčak vodi najprije do slikovite livade s klupama, a zatim i do samog slapa. Nasuprot slapu sagrađen je drveni most. Cijeli taj impresionistički prizor skriven je u šumskoj hladovini.

500 HORVATOVIH STUBA

Arhitektonski biser Medvednice nalazi na sjevernoj padini, a sagradio ih je planinar Vladimir Horvat od 1946. do 1953. godine. To je atraktivni put od 500 kamenih stuba koji nas vodi do nekoliko malih ponora, vidikovaca, špilje Medvednice te konačno do odmorišta Srnec s klupama za izletnike. Markirani put počinje s livade Hunjke ispred Zvonimirova doma, a za silazak do odmorišta Srnec potrebno je 45 minuta. Izlet je posebno pogodan za obitelji s djecom, a okrepa nakon povratka na livadu Hunjku može se dobiti ili u Zvonimirovom domu, ili u planinarskoj kući Hunjka. Prilaz stubama moguć je i s vrha Sljemena stazom broj 39 koja se odvaja od Činovničkog sedla.

400 VODEĆIH LIDERA BRITANSKOG TURISTIČKOG SEKTORA U SPLITU NA GODIŠNJOJ KONFERENCIJI

Pozitivni trendovi s tržišta Ujedinjenog Kraljevstva zadržani su i u dosadašnjem dijelu godine, u kojem je ostvareno 200 tisuća dolazaka te više od 890 tisuća noćenja, što predstavlja rast od 5 posto u odnosu na isto razdoblje lani

U Splitu je od 10. do 12. lipnja održana prestižna godišnja konferencija britanskog udruženja profesionalaca u turizmu ITT - Institute of Travel and Tourism. ITT konferencija u hotelu Le Méridien Lav u Split je privukla više od 400 vodećih delegata i predstavnika britanskog turizma, kao što su VisitBritain, British Airways, easyJet, TUI, Thomas Cook, Lonely Planet i dr. Domaćini ITT konferencije, jedine profesionalne turističke udruge u Ujedinjenom Kraljevstvu u čijem su članstvu vodeći generalni menadžeri i lideri britanske turističke industrije, bili su Hrvatska turistička zajednica, TZ Splitsko-dalmatinske županije, TZ grada Splita i TZ grada Hvara.

Pozdravni i uvodni govor na konferenciji, uz direktora Hrvatske turističke zajednice Kristjana Staničića i državnog tajnika u Ministarstvu turizma Tončija Glavinu, održao je i predsjednik ITT-a Steven Freudmann.

"Iznimna mi je čast što je Hrvatska domaćin ove vrlo važne konferencije koja je u našu zemlju privukla vodeće ljude britanskog turističkog sektora. Rezultat je to proaktivnog dvogodišnjeg pregovaranja da upravo naša zemlja bude domaćin konferencije, a prvi dojmovi britanskih kolega izrazito su pozitivni. Siguran sam kako će održavanje ove konferencije dodatno pridonijeti pozicioniranju naše zemlje kao kvalitetne i atraktivne turističke destinacije na britanskom tržištu", izjavio je direktor HTZ-a Kristjan Staničić i dodao kako su pozitivni trendovi s tržišta Ujedinjenog Kraljevstva zadržani i u dosadašnjem dijelu godine u kojem je ostvareno 200 tisuća dolazaka te više od 890 tisuća noćenja, što predstavlja rast od 5 posto u odnosu na isto razdoblje lani.

Predsjednik ITT-a Steven Freudmann predstavio je rad ITT-a i nove članice te je naglasio kako su oduševljeni golemim gostoprimstvom, zadivljujućom ljepotom te kvalitetom hrvatske turističke usluge. "Ovakvo domaćinstvo teško je opisati riječima. Nema razloga da vaša zemlja ne bude jedna od top destinacija britanskih turista. Hvala Hrvatskoj, hvala Splitu i splitskoj regiji", poručio je Freudmann.

Sudionici i govornici konferencije bili su visoki uzvanici, kao što je lord Andrew Adonis, bivši britanski ministar za promet i obrazovanje, koji je govorio o utjecaju Brexita na ulazni i izlazni turizam zemlje, dok je Carol Dray, komercijalna direktorica VisitBritain, govorila o novim ulogama i ciljevima britanske nacionalne turističke organizacije u promoviranju zemlje. Predstavnici British Airwaysa održali su posebnu prezentaciju u povodu 100. obljetnice koju ta kompanija obilježava ove godine, a na konferenciji se govorilo i o ulozi novih tehnologija u analizama podataka i kreiranju proizvoda, važnosti komunikacije u turističkoj promociji, kružnim putovanjima i dr.

Dodajmo kako su konferenciji prisustvovali i novoizabrana direktorica Predstavništva HTZ-a u Londonu Darija Reić, direktor TZ-a Splitsko-dalmatinske županije Joško Stella, direktorica TZ-a grada Splita Alijana Vukšić i direktor TZ-a grada Hvara Petar Razović.

Cjelokupni program konferencije uključivao je i organizirane ture te obilaske turistički atraktivnih lokacija i znamenitosti na području Splitsko-dalmatinske županije, s naglaskom na Split, Trogir i Hvar.

400 BRITISH TRAVEL INDUSTRY LEADERS MEETING AT ANNUAL CONFERENCE IN SPLIT

This year's upward trends in the UK market have continued, with 200,000 arrivals and more than 890,000 overnight stays, representing a 5% growth compared to the same period last year

The prestigious annual conference of the British Institute of Travel and Tourism (ITT), a professional membership body for individuals employed in the British travel and tourism industry, took place at the Le Méridien Lav Hotel in Split from 10 to 12 June. The ITT conference attracted more than 400 leading UK travel industry delegates and representatives such as VisitBritain, British Airways, easyJet, TUI, Thomas Cook, Lonely Planet, etc. The hosts of the conference organized by ITT, the only membership organization for travel and tourism professionals in the UK, including top general managers and the British travel industry leaders, were the Croatian National Tourist Board, Split-Dalmatia County Tourist Board, Split Tourist Board and Hvar Tourist Board.

Besides Mr. Kristjan Staničić, the Director of the Croatian National Tourist Board (HTZ), and Mr. Tonči Glavina, the State Secretary at the Ministry of Tourism, Mr. Steven Freudmann, the President of ITT, gave the opening speech and welcomed the attendees at the conference.

"It is a great honour for Croatia to host this very important conference that has attracted leading individuals from the British travel industry to our country. It took two years of proactive negotiations for our country to host the conference, and the first impressions my British colleagues have shared are extremely positive. I am certain that the organization of this conference will additionally contribute to the positioning of our country in the British market as a great and attractive tourist destination," HTZ director Kristjan Staničić said, adding that this year's upwards trends in the UK market have continued, with 200,000 arrivals and more than 890,000 overnight stays, representing a 5% growth compared to the same period last year.

Mr. Steven Freudmann, the President of ITT, presented the work of ITT and new members, emphasizing that they were delighted by the generous hospitality, the astonishing beauty and the quality of the Croatian tourism services. "There are no words to describe this kind of hospitality. There is no reason why your country shouldn't be one of the top destinations for British tourists. Thank you Croatia, thank you Split and the Split region," Freudmann said.

The participants and speakers at the conference included dignitaries such as Lord Andrew Adonis, the former British Minister of State for Transport and Education, who spoke about the impact of Brexit on the country's inbound and outbound tourism, and Mrs. Carol Dray, the Commercial Director of VisitBritain, who spoke about new roles and goals of the British National Tourism Organization in promoting the country.

The representatives of British Airways held a special presentation on the occasion of their company's 100th anniversary to be celebrated this year. Other topics discussed at the conference included the role of new technologies in data analyses and product creation, the importance of communication in tourism promotion, cruising, etc.

The newly elected director of the Croatian National Tourist Office in London, Mrs. Darija Reić, the Director of Split-Dalmatia County Tourist Board, Mr. Joško Stella, the Director of Split Tourist Board, Mrs. Alijana Vukšić, and the Director of Hvar Tourist Board, Mr. Petar Razović, also attended the conference.

The overall conference programme included organized tours and sightseeing of tourist attractions and famous historic sites in Split-Dalmatia County, especially in Split, Trogir and Hvar.

MEDVEDGRAD

DRAGO SOPTA /HANZA MEDIA

FROM THE FORT YOU CAN ENJOY SPECTACULAR VIEW ON ZAGREB

This fort was built after the invasion of the Tatars in the 13th century. It is situated on the southwest slope of Medvednica Mountain, at 593 meters. The construction of Medvedgrad was ordered in 1250 by Filip, the bishop of Zagreb, with the aim of defending Kaptol and bishops' estates. Around 1260 King Bela IV gave the fort to Duke Stjepko Šubić, and then to other Croatian governors (ban). The fort was severely damaged in the earthquake in 1590, so the last inhabitants left in 1602. In 1994 the Altar of Homeland, a monument to all Croatian heroes, was erected. Today many fairs and concerts take place there. Myths and legends about Medvedgrad have been created over centuries, the most famous one about the mean Black Queen and the buried treasure.

HOW TO GET THERE?

Tak e bus 102 Mihaljevac - Britanski Trg, go to Šestinska Church, continue up trail number 12 from Lagvić to Medvedgrad.

VETERNICA CAVE

VETERNICA CAVE IS THE FIFTH LONGEST CAVE IN CROATIA

7127 meters long Veternica Cave is the fifth longest cave in Croatia, and a significant archaeological and paleontological finding, only 9 kilometres away from the city. It is rich in the phenomena rarely found in traditional caves visited by tourists – vortex forms resulting from erosion, sand dunes, the remains of the extinct cave bear, lion, leopard, hyena, rhinoceros, auroch, a huge deer, shell and sea urchin fossils, and even shark's teeth. People used to live in this cave, as evidenced by the traces of tools of both the Neanderthal and a modern man. Roman coins, brass buckles and oil lamps have also been found. The cave is closed in winter, when it is the home to as many as fourteen types of bats in hibernation.

HOW TO GET THERE?

ON FOOT:

3-kilometer hiking trail leading from Gornji Stenjevec to Veternica and Glavica mountain house nearby.

BY BUS:

Bus 124 for Gornji Stenjevac, from the station at Črnomerec. The cave is accessed via trail number 3, along the Dubravica creek; it takes about 20 minutes to get there.

THE ZRINSKI MINE

BORIS KOVAČEV/HANZA MEDIA

VISIT THE MINE THAT PRODUCED 10 TONS OF ORE AND 5 KG OF SILVER DAILY

In 1463 King Matija Korvin granted a royal mining privilege to Count Petar Zrinski, enabling him and his descendants to open gold and silver, and other ore mines on all their properties. With this privilege the Zrinski family was able to mine in the area of the Mining Garden (Rudarski vrt). In 1527 Petar Zrinski's descendant Nikola signed an agreement with the citizens of Zagreb, granting them the right to mining. This is when the story of Zrinski Mine begins. It has been estimated that the daily production capacity was 10 tons of ore, 5 kg of which was silver. Around 30 miners worked in the mines every day. Legends mention many secret passages leading from Zrinski Mine to Medvedgrad and to St Mark's Church in the old town.

HOW TO GET THERE?

ON FOOT:

Take Miroslavec trail from Šestinski Lagvić to Kraljičin zdenac, then cross the asphalt road and continue along 1m trail.

BY BUS OR CAR:

From Mihaljevac to Tomislavov dom

SOPOT WATERFALL

The rock behind the waterfall is 9 meters high, making this the biggest waterfall on Medvednica. It is hidden in the place you can reach if you take the trail from Gornje Vrapče, go to Družinec well on the romantic clearing with benches. From here go either left towards Ponikve, or right towards Sopot Waterfall. The path then takes you through a thick, beautiful forest, then steeply down to the road along Vrapčak creek, first to the picturesque meadow with benches, then to the waterfall.

500 HORVAT'S STEPS

The architectural pearl of Medvednica, built by hiker Vladimir Horvat between 1946 and 1953, is on the north slope. It is an attractive trail made of 500 stone steps leading to several small chasms, vantage points, Medvednica cave, and finally to Srnec landing with benches. The marked trail starts at Hunjka meadow in front of Zvonimirov dom, and it takes you 45 minutes to reach Srnec from there. This is a wonderful outing for families with children, and refreshment can be bought at Zvonimirov dom or in Hunjka mountain house. To reach the steps take trail number 39 from the top of Sljeme, parting from Činovničko sedlo and going through a picturesque and wild forest to Srnec landing.

MEDVEDNICA MOUNTAIN ABOVE ZAGREB

HIGHEST PEAK OF MEDVEDNICA NATURE PARK, STRETCHING OVER MORE THAN 22,000 HECTARES, IS SLJEME AT 1033 METERS
AUTHOR SERGEJ TRAJKOVIĆ

Sljeme (at 1033 metres) is the highest peak of Medvednica Nature Park stretching over more than 22,000 hectares. It is famous for the World Cup Snow Queen ski race, but is also the place where visitors can enjoy historical and natural monuments all year round.

The road leading to Sljeme starts at the foot of Medvednica, near Bliznec, and ends at Tomislavov dom near the top. Alternatively, choose any of the numerous hiking trails leading to the top. At the very peak, next to ski slopes, there is Vidikovac restaurant from which there is a wonderful view of Hrvatsko Zagorje. If the sky is very clear, you can even see Triglav in the Julian Alps.

If you feel like hiking, take the 6.3 kilometres long Leustekova staza trail number 14, which is the most popular and the easiest one. To get there, take tram number 15 at Mihaljevac and get off at Gračani stop, the one before last. Continue north towards Medvednica. You can see the foundations of the Rebar Villa nearby. Half way through there is Adolfovac mountain house. The trail then goes to the top, crossing the Sljeme road twice, passing by Sljeme well, and leading to Stara lugarnica, Željezničar mountain house and finally Činovnička livada at the very top. You can reach Sljeme if you take trail number 15, which is in most part parallel to Leustekova staza, but is much steeper and hikers need to be in really good shape

Mirogoj's arcades are the most photographed detail of Zagreb in the spring and fall when this spectacular wall is crossed by the 'green wrap'

THE MOST BEAUTIFUL PARK AND AN OUTDOOR GALLERY

Mirogoj is known as one of the most beautiful cemeteries in Europe and visitors are most fascinated by the arcade cupolas made by Herman Bollé

Mirogoj, the largest and most famous cemetery in Zagreb, is not only a memorial of the Croatian past, but also a beautiful park and an outdoor art gallery. Mirogoj has always been of special interest to tourists because of the large number of famous Croatian historical personalities such as Marija Jurić Zagorka, Ljudevit Gaj, August Šenoa, Stjepan Radić, Dražen Petrović and many others who are buried there. Its importance also lies in the religious tolerance as it has always been regarded as a place where all religions are recognised and respected.The most famous image of Mirogoj is definitely the one showing its magnificent arcades. They are the work of Herman Bollé, an architect who considerably shaped both the city and Mirogoj. Soon after the Mirogoj Cemetery opened in 1879, Bollé began working on the arcades. The construction of the arcades was completed in 1917. Although Bollé's original idea was to build the arcades around the entire cemetery, only 20 domes were completed. Today, the entire Mirogoj Cemetery, together with the arcades, is considered an open-air museum and one of the most beautiful cemeteries in Europe. This famous cemetery is often called the Croatian Pantheon due to the large number of prominent and influential people who have their final resting place there. Due to the growing interest in visiting Mirogoj, the Tourist Board of Zagreb has issued a brochure about Mirogoj that can be downloaded on their website. "The arcades of Bollé, along with their central dome and numerous valuable monuments of prominent Croatian sculptors, are today a true art gallery in the open, a worthy expression of respect for the most notable individuals of Croatian thought, art, science, crafts and sports, as well as for those less known laid to rest here. The evidence for that is the membership of Mirogoj in the Association of significant cemeteries in Europe, a network that unifies the cemeteries of special historic and artistic importance, and which promotes cemeteries as a fundamental part of human heritage." Once you visit this grandiose cemetery in Zagreb, you will get a clear impression of what kind of magnificent work of architecture it is.

The neo-baroque Croatian National Theater building, a masterpiece of late historicism designed by the Austrian architect Ferdinand Fellner and German architect Hermann Helmer, is certainly one of the most impressive buildings in Zagreb. Opened in 1895 and seating 750 people, it has one iron curtain and seven painted curtains displayed on different formal occasions. Theatre goers can enjoy drama, opera or ballet there. One of the most beautiful city fountains is in front of the Croatian National Theatre, and it was sculpted by Ivan Meštrović.

LOTRŠČAK

The tower was built in mid-13th century to protect the south city gate and has been used throughout history as living quarters, a warehouse, a coffee shop... Tourists can enjoy a spectacular view of the city from the top of the tower, visit an exhibition or buy some local products in the souvenir shop. The Grič Canon is on the fourth floor, and it greets the residents of Zagreb every day precisely at noon. The canon was fired for the first time on New Year's Eve in 1877. It remained forgotten during World War 1 and did not reappear until 1927.

STONE GATE

As one of the best preserved monuments of old Zagreb, this is the only remaining gate of the former city defense system. It was built in the 13th century and given its present design in 1760. The passageway within the gate contains a chapel with a picture of St. Mary of the Stone Gate, the city guardian, which according to a legend survived a major fire in 1731 without any damage.

Light a candle at Stone Gate and be sure to never stand under the Lotršćak Tower at noon as it will surprise you when the Grič cannon fires.

ST. MARK'S CHURCH

The picturesque St. Mark's Church is one of the oldest buildings in Zagreb and one of its symbols, distinctive for its roof made of multicolor roof tiles. The church has existed since the 13th century, but it famous roof is much younger – it was installed during its most recent reconstruction in the second half of the 19th century. The roof features emblems of the Croatian regions of Dalmatia and Slavonia on the left side, and the Zagreb City emblem on the right side. There are three altars in the interior, sculpted by Ivan Meštrović, and Kljaković's sacristy painted from the floor to the ceiling.
