WTA CROATIA OPEN BOL 5-11 JUNE

Summer Starts in Bol!

SUMMER

REUTERS

► Bol on Brač will not only be a professional tennis center for women from June 5 to 11, but also a center of top entertainment. Croatia Bol Open is the only WTA tournament in southeastern Europe, and a come-back of the tournament after 13 long years has thrilled all sports fans.

Aside from the attractive sports program, an entertainment program is in store with numerous events and music performers. Some of the most popular Croatian performers are on the program such as TBF, and Sara Renar will be promoting her new album "Tišina" (Silence) at her concert. There will also be the Justin's Johnson concert, which is one of the most perspective bands of the new generation and then performances of world electronic scene stars such as DJ Antoine and DJ Sak Noel.

Children until 12 years of age and accompanied by an adult will be exempt from ticket payment.

GOLDEN HORN

Bol is famous for its many lovely beaches. Zlatni rat (Golden Horn) Beach, one of the biggest and loveliest natural attractions of the Adriatic, is located to the west of Bol. It extends like a tongue almost half a kilometer into the clear sea. "It grows" with the layers of small pebbles being deposited around the submarine ridge thus changing the shape of Zlatni rat (Golden Horn) and trying to please the will of the waves and sea currents.

9 June,

Bol town center - Justin's Johnson concert, a young Split band characterized by authentic and original sounds combined with various genres. The likeable group of six performers loved by critics and the public will promote their new material combined with old songs.

10 June
Saturday

The TBF concert is to take place in Bol, the evening prior to the final WTA Croatia Bol Open dual. It will also be an excellent opportunity for the celebration of the 20th anniversary of their debut album "Ping-Pong (art of a healthy tour)".

DJ Antoine, well-known to the Bol audience, will perform even this year, on Saturday after TBF in Varader, and the night before this famous Bol club will be on fire with DJ Sak Noel, known to the audience around the world for his great hit "Loca People".

Today is your lucky day

Split is not only a city museum but a place full of life that thrives among its historical layers

AUTHOR MILENA BUDIMIR

► You will read in every guidebook that Split is a city that arose from the palace of the Roman emperor Diocletian, one of the best preserved and impressive buildings from the Roman period in Europe. You will also read that the historical city nucleus has been on the UNESCO World Heritage List since 1979. How to get to know the city in one day? A difficult task. Walk westward along the Waterfront, passing by nu-

merous coffee shops and shops and enjoy the view of the Palace southern façade and the city port. You will then come to the city squares such as Fruit Square and People's Square and further on towards the northern wall of the Palace, the best preserved one.

Do not miss "your luck" and touch the toe of the grandiose statue of Grgur Ninski (Gregory of Nin), work of the famous Croatian sculptor Ivan Meštrović. The

Golden Gate will appear before you. Go through the gate and into the Palace and visit the antique and medieval streets and squares, go along the narrowest street in the city called "Let me pass" just next to Jupiter's temple. "Lose your way" in the labyrinth of the once emperor's quarters and let your way take you through the Vestibule to reach the central imperial square called Peristyle.

TIP ONE

START FROM THE MOST IMPORTANT HISTORICAL MONUMENTS, THEREFORE, DIOCLETIAN'S PALACE AND THE CITY NUCLEUS, INCLUDING THE MOST IMPORTANT CITY PROMENADE, THE WATERFRONT. WHAT IS IMPORTANT IN SUCH A QUICK VISIT IS THAT THE URBAN LIFE TAKES PLACE IN THIS AREA SO THE PROMENADE WILL NOT BE JUST RUSHING FROM MONUMENT TO MONUMENT, BUT ALSO AN OPPORTUNITY TO JOIN THE INHABITANTS OF SPLIT IN THEIR DAILY LIFE.

TIP TWO

ALTHOUGH THE OLD PART OF THE CITY IN THE PALACE AND AROUND IT WILL SEEM LIKE A LABYRINTH, IT IS, ACTUALLY, QUITE EASY TO GET AROUND. START YOUR PROMENADE FROM THE MODEL OF THE OLD HISTORICAL NUCLEUS ON THE WATERFRONT, AND THE PLATE WITH AN ILLUSTRATION OF THE RECONSTRUCTED DIOCLETIAN PALACE.

Drniš prosciutto

The secret to its perfect taste - happy pigs

► Drniš prosciutto is well known internationally, and soon it will also be added to the Guinness Book of Records!

The town of Drniš's own Ante Reljanović is a proud owner of a 103.5 cm long record-breaking prosciutto weighing 22.5 kg. The delicacy might soon be published in one of the world's most famous books - the Guinness Book of Records.

- I sent my application to the Guinness Book of Records people and found out that the largest prosciutto category does not exist, which automatically places us into the selection. Experts from the Guinness legal service came promptly, measured the prosciutto, we signed all the forms and now we're just waiting for the final confirmation.

I am so happy because Dr-

njiš prosciutto is something special. We have protected it as an original food item of the area, and I have started the Drniš Prosciutto Festival myself as well as came up with the logo for the "Welcome to Drniš, the town of prosciutto" slogan - said Ante.

The record-breaking prosciutto is three years old and was made from the meat of the Durok pig, a domestic pig-wild boar cross, which, according to Ante, is the best meat for prosciutto.

- The Durok breed does not exist elsewhere in Europe and its characteristic is that it is a cross of domestic pig and wild boar, while our own pigs have another quality: they are "happy pigs" as they are not held indoors, they roam the land, feed on grass, shamrock, and of course - they breathe fresh air.

How to manage in Makarska

When in Makarska and you ask where to find the best restaurant, you will often get this answer: 'All In mobile app'. That, of course, is not a restaurant but an application for smart phones that gives you an overview of the best hospitality structures, available accommodation, clubs, beauty salons, taxi service, even beaches and timetables for local bus lines

AUTHOR ANDREA TOPIĆ

► 'All In Makarska Riviera' offers all you need to know on a certain field of interest and connects you directly with your hosts and local inhabitants. This is the reason why it is special and differs from all other users in its immediate connection with the service offer – you can choose: by calling, texting or through social media. Whatever the case, you only need to search for what you need in the application. It is multi-functional, and can, therefore, be used as a navigation system leading you through Makarska showing you its monuments and the location of important institutions (emergency first aid, police). "All in" is available on Google Play and App Store where it has already been successfully functioning for two years, registering a great

number of active users even during the winter months. The creator of the application is entrepreneur Mateo Perković, who says that his team is surprised by these statistics. – In the two years of its existence "All in" has registered 25 000 downloads, and has had 1500 new users from December to February. The main use of the application in winter is in planning annual vacations, and proof

of "downloader" satisfaction is the 4.7 stars in the total of 5 in application sales – Perković is satisfied for in this project he sees the future of communication in tourism. The application has shown to be an excellent tool for workers in the tourist sector for it literally substitutes all the printed brochures and visit cards and verbal application with "hands and feet" which is often quite inconvenient. It is a

free interactive map for destination marketing that offers all the information needed for a chosen destination. You also have the possibility of notifications on manifestations taking place in the city during your stay to appear on your smartphone screen – adds Perković who points out another special possibility of his new project. – Tourists are afraid of commissions and mediators, while that is not the case here. The application is completely free to use. There is also a small manual with instructions on communication in the Croatian language and enables systems in English, German, Italian, Polish and Czech languages – the entrepreneur emphasizes and he believes that his new "All in Split" and "All in Brač" will flourish with equal intensity.

The privilege of enjoying time

► Makarska is one of the best known tourist destinations on the Croatian coast, attractive due to its natural and weather characteristics, diverse tourist offer and friendly hosts.

The 2 km long sandy and pebbled beach is the town of Makarska's most famous landmark. Next to promenades framed by pine trees, you will find various tourist amenities, comfortable

hotels, restaurants serving international and local specialities as well as plenty of fun options for both children and adults.

Makarska is located at the foot of Mount Biokovo which protects the town from the reach of continental climate and it has lush Mediterranean vegetation, mild winters and long and warm summers accompanied with refreshing maestral wind.

It has more than 2750 sunny hours a year and air temperatures above 20°C from June to September. Its clear blue sea is also above 20°C from June to October.

Makarska provides refuge in stormy weather - to mariners, pirates and traders back in the olden days, and today it gives shelter to tourist yachts, sailboats and excursion boats.

What connects THE VIKINGS with Dalmatia?

AUTHOR DRAŽEN DUILO

► During the recent archaeological research performed in Bribirska glavica, a locality where history has left numerous traces during three centuries, a stone inscription was found, among other things, which dates from the 8th or first half of the 9th centuries on which SKANIA INFERIOR was inscribed. It is to be mentioned that Skania is a region in Scandinavia where Christianity was accepted in the 12th century and the mentioned inscription, first of its kind known in the world, indicates that the Vikings had a connection with this part of the world and the religion of this region three full centuries before being officially acknowledged in their homeland.

Prof. dr. Victor Ghica from the Norwegian School of Theology recently visited Bribirska glavica and held an interesting lecture in that pla-

ce full of monuments from prehistorical times, antiquity and the Middle Ages. The mentioned inscription is very important for the connection between the Vikings and Dalmatia has been discovered for the first time. Nothing similar was known until then but it is to be acknowledged that no one has ever tried to do any research until presently. The contacts between the Vikings and the Mediterranean have been known to Scandinavian science as well as the visit and stay of individuals in Constantinople and Italy at the time the inscription appeared.

- It has been proved that there were small Christian communities at the time in southern Denmark, particularly in the town of Hedeby. That was the result of the work of individual missionaries, while the 12th century is the period when Christianity was accepted by the elite, and thus the christening of the Vikings is connected to that pe-

riod. The document from Bribirska glavica is very significant for it throws a new light on the relationship between the Vikings and Christianity - says dr. Ghica.

- What to Swedish, Norwegian and Danish experts say about the discovery in Bribirska glavica? - we ask him.

- Nothing of this is known to them yet for the announcement of these findings is ready only now, after returning to Norway - he announces, emphasizing that he stayed here as an archaeologist and not a historian.

Bribirska glavica

IS ONE OF THE MOST SIGNIFICANT LOCALITIES IN CROATIA, AND THE CLOSEST BIGGER LOCALITY IN ITS PROXIMITY IS SKRADIN. THE EASIEST WAY TO REACH BRIBIRSKA GLAVICA IS TO TAKE THE EXIT FOR SKRADIN FROM THE AUTOROUTE AND THEN TURN LEFT TOWARDS THE WEST WHILE SKRADIN IS TO THE RIGHT. AFTER ABOUT 10 KILOMETRES, IN COMING TO BRIBIR, A THE ROAD SIGN FOR BRIBIRSKA GLAVICA WILL APPEAR, A HIGHER GROUND THAT DOMINATES THE ENTIRE AREA.

Don't forget - Dalmatia is one of Europe's rising stars. We have 1244 islands, bear and wild boar inhabited forests and world-class vineyards is so much more than just a beach destination.

Follow our top ten travel tips

1 Take your time

Explore the coast. Our gems like the UNESCO listed Plitvice Lakes, city of Trogir, Split, Šibenik, Zadar, our islands... Take your time to see it all. Be a good planer.

2 Don't only swim

Yes, great sea, faboulous sunny days - but get on your feet - don't miss Games of Thrones star Dubrovnik, Split, with it's spectacular Roman Diocletian's Palace, the old Roman hub of Žadar and early Croatian city Šibenik.

3 Bucket list

Google us! Find all about us, and make your own Bucket list: things to do and see and try at our coast.

4 Get the reservation

Spare beds are hard to find in the middle od the summer, so - make your reservation before you travel. It can be realy hard to find a place to stay, especially in the most popular islands – like Hvar and Brać – and Dubrovnik. Booking ahead makes sense.

5 Stay Healthy

You should always take care! But if something bad happens - you can recieve a basic health care in every corner of Dalmatia. Don't forget - the emergency ambulance number in Croatia is 112.

6 Drink up

Croats love their beer, but you should (also) try Dalmatian wines! Look out for the mighty Dingač red and the dry Pošip white.

7 Get active

Getting active is the best way to discover our hidden corners. Omiš offers superb hiking and climbing, while in the islands the walk to the highest point, Vidova Gora on Brać, offers remarkable views. For rafting the Cetina River tempts, while windsurfers should head to Korčula and kitesurfers to Neretva or Pelješac.

8 Eat well

Croats are proud of the fine organic products their country has, wherever you are, a local market is never far away, so shop local.

9 Talk to the locals

You'll soon understand that a Dalmatian people are very friendly. They will gladly help you, and show you what you can't find online, or in a book.

10 Try the seafood

Croatia's seafood is truly world class. Fish delights are comming daily from the Adriatic, the cleanest corner of the Mediterranean. No trip to the coast is complete without a seafood feast.

BAŠKA VODA

TASTE

the sea,
the mountain,
the fun

AUTHOR ANDREA TOPIĆ

► Baška Voda is located in the centre of the Makarska Riviera. It has just a bit less than three thousand inhabitants and covers the area of 20 square kilometres, the major part of which is the beach. This is the town where Mount Biokovo meets the sea and the rich tourist offer has something for everyone. Apart from the archaeological museum and the permanent shellfish exhibition, you can visit numerous events such as the BMX stunt festival, concerts at the waterfront and boat excursions.

1 Play football on Mount Biokovo

Just fifteen minutes by foot from the centre of Baška Voda in the direction of Mount Biokovo, you will come across an area called Greben. It is one of the sites where the planetary popular "Game of Thrones" show was filmed. When there are no film crews around, it also hosts a playing field with two goals where you can play football, basketball and many other sports you may like.

7
Things to do in Baška voda

2 Hike to the most beautiful mountain tops

Mount Biokovo has a total of 15 hiking trails, some of the most beautiful ones being located above the town of Baška Voda. These mountain tops offer a magnificent view of the entire Makarska Riviera. For information about the trails, contact the Tourism Board or the Sveti Ilija Hiking Club. They also offer a chance to take some fabulous selfies.

3 BMX Bicycle Stunt Festival

Each summer the Baška Voda waterfront hosts the spectacular BMX Festival gathering the best extreme cyclists from all over the world. Stunts on two wheels with jumps into the air and into the sea from ramps are once again in store this year as part of a multi-day programme which will include an international competition.

4 Olive picking and olive oil tasting

In order to take advantage of all the natural beauties that Baška Voda has to offer, make sure you visit the surrounding eco-ethno villages of Topići and Bast. Each year, at the beginning of October, you can participate in olive picking and see how the oil is made. Of course, then you can also taste it!

5 Blue flag awarded kilometres long beaches

Let us not forget a few kilometres of pebbled and sandy beaches stretching along the town's coast. The most famous beach is called "Nikolina" and is located in the very town centre. It has received many prestigious international awards. In addition to the Nikolina Beach, the surrounding beaches have also been awarded the blue flag, which symbolises clean sea and environment.

6 Rent a boat with your friends and sail away

Rent a small boat that doesn't need special permits and licenses and sail away with your friends. Enjoy a beautiful sunset, a glass of cold local wine and visit the surrounding towns. Also, you can rent a parachute and a speedboat and observe the coast from the sea.

► This bar, which has won us over instantly both with its interior and exterior design, is located a bit further away from the hustle and bustle of the city, in a predominantly residential area. Regardless of whether your choice might be a sunny terrace or a library-inspired interior, this is a place where you may enjoy fine coffee and warm drinks.

GRADELE or how to grill a fish

GRILL BRIEFLY

THE FISH IS QUICKLY DONE, DO NOT GRILL IT TOO LONG BECAUSE IT WILL LOSE JUICINESS

DO NOT PLACE FISH IN THE CENTER OF 'GRADELE'

ALWAYS GRILL FISH ON THE OUTER EDGES OF 'GRADELE', AND NOT IN THE MIDDLE OF THE GRID BECAUSE THAT POINT IS VERY HOT

PREVENT STICKING

DRY THE FISH AND 'DROWN' IT IN OLIVE OIL TO PREVENT STICKING TO THE GRID

BE CAREFUL WHILE TURNING

FISH WILL EASILY FALL APART IF NOT CAREFULLY TURNED OVER

IS IT OVER ALREADY?

NOT TO RAW AND NOT TOO OVERDONE THAT IS THE POINT. INSERT THE FORK INTO THE FLESH OF FISH. IF THE MEAT IS EASILY SEPARATED - IT IS OVER.

This restaurant its just perfect if you want to eat something fresh, amazing and in a good price range. The owner is very enthusiastic and takes most of the orders. If you are there for the first time yo'll see that he just enjoys his work and cares about the customers. We recommende - see food and great wine. Don Antonio has his own farm so the produces almost everything alone. Try his home made wine. The restaurant has a lovely garden, a small menu but carefully chosen and food cooked with passion. A joy to eat there and very reasonable prices for the quality.

PERIVOJ

SLAVIĆEVA 44, SPLIT
OPEN FROM 8 - 23

The fact that Perivoj is located in a villa that is from the 1900's makes it very special. It is truly a gem in Split. Secondly, pastry and savory food are very important, as they make sure they work with best of ingredients and focus on seasonality. Also, don't forget they have friendly staff! You can say they have best desserts you ever tasted, pastries and pies with chocolate melting down the sides sure are a weakness and we bet you love them too. Who can resist that crackle when biting down on a macadamia hugged by caramel? It is for a full meal or just coffee and cakes - you must experience it!

► Everyone knows all about St. Michael's Fortress in Šibenik, Kamelengo Fortress in Trogir, Castle Vitturi in Kaštel, Diocletian's Palace in Split, Klis Fortress, the ramparts of Ston, Dubrovnik

walls, and the Korčula Old Town. But hidden Dalmatia preserves many more old buildings where legends were born, happy and tragic love stories. Little by little they are becoming of central in-

terest as very attractive locations, for numerous domestic and foreign guests. We have prepared a short list for you, so if you are anywhere in the vicinity, it would be a shame to miss them.

1 Mill on Pantania Trogir

Dalmatian Kopački rit, 50 hectares of marshland with an abundance of sedge, 12 brackish water and fresh water sources, a lake, the small River Rika and a sea lagoon, a special ornithological and ichthyological reserve, it preserves a mill in the centre which is private ownership of the nature lover and prominent physician dr. Mladen Pavić. He is to be credited with the present appearance and reconstruction of museum, hospitality and scientific content.

2 Kaštilac Kaštel Gomilica

A unique fortification built on an underwater rock, connected with the coast by a bridge, it was founded by nuns to protect themselves from the Turks. Kaštilac is attractive due to its tenants that are still living there even today. It attracted the attention of the team from "Games of Thrones" that chose it for the location for shooting many scenes.

3 Gripe Fortress Split

A fortification situated not far from the very centre of the city. It was founded in the 17th century to protect Split from Turkish attacks. It houses the Croatian Maritime Museum, and is interesting to tourists for its numerous peacocks that nest here in the open and live in this Split locality.

4 Topana Imotski

The Red and Blue Lakes are not the only trademarks of Imotski for there is also Topana Fortress. It stands on the flanks of Blue Lake. It is of irregular shape for following the shape of the steep cliffs on which it was erected. It was under Turkish rule for 200 years. It is a favourite bellevue and summer stage for numerous cultural events.

5 Kaštel Radojković Škrip

Only last year more than 15 thousand visitors visited the Škrip Kaštel Radojković. This famous fortification of the island of Brač is located in lovely, tiny Škrip, a small village on the island mountains. Kaštel is interesting for it houses the Homeland Collection of the island of Brač with valuable exhibits.

6 Kaštel Gligo, Bobovišća

Brač has many interesting fortifications, summer houses and also towers which are most numerous in rocky Pučišće. It has Kaštel Gligo situated in Bobovišća, a marvellous fortification with stone walls to protect it from unwanted attacks from the shore. In the summer it is inhabited by the descendants of the first owners who, when asked, generously allow anyone to enter the vast courtyard and take pictures of the impressive construction.

7 Fortica Omiš

I Omiš has its asset, a not so large but impressive Fortica situated on the cliffs above the Cetina Canyon. The site is similar to an eagle's nest and enabled its former tenants to view if enemy forces were approaching from the sea. It is somewhat inaccessible and thus adrenalin delights for modern tourists.

8 Martinis Castle - Marchi Maslinica

Many say that this is the most beautiful castle on the Dalmatian islands, today a luxurious hotel and restaurant with its pertaining marina. The owner has renewed it carefully, breathing new life into it and making it one of the most representative tourist attractions of the Dalmatian region.

9 Hektorovićev Tvrđalj Stari Grad Hvar

Imposing, marvellous and notable for it was built in the 16th century as a summerhouse of the Croatian poet, Petar Hektorović, author of the poem "Ribanje i ribarsko prigorvanje" (Fishing and Fishing Demur). The connection between defence and rural architecture created a fortified Renaissance villa, with a garden, fishpond with brackish water trimmed with arcades, walkways...

10 Fortica Hvar

The Hvar fortification rises high above the town of Hvar joining a historical story with interesting architecture content and a view point overlooking the old town with its port and the Paklenski Islands. Fortica offers bar service, two souvenir shops, a museum with an archaeological collection of amphora, spyglass with coins and in the summer events, concerts, exclusive evenings, and weddings are sometimes organized here ...

What do you think about hanging from a steel wire at the height of 150 metres above the River of Cetina's gorgeous canyon? What if we told you that you were racing at the speed of 65 km/h at that height?

AUTHOR ENA MILAN

► The zipline is located 5 kilometres from Omiš, in the beautiful Cetina River Canyon and consists of 8 wires of 2100 metres in length. You will experience three unforgettable hours of fun in beautiful nature. Each group is accompanied by two guides.

TOP5 Beaches for this summer

Legend says that the person who finds the shell becomes and remains lucky for his whole life. Therefore - try your luck

AUTHOR MILENA BUDIMIR

► No matter if you are a young couples desiring romance and if you are one of those desiring adventure, no matter if you are family with small children, or older, or the disabled - you'll find your beach in Dalmatia.

► Zlatni rat Beach is not only a tourist symbol of Bol but the trademark of Croatian tourism. Zlatni rat Beach extends almost half a kilometre vertically and in tongue-shape into the sea. It is, at the same time, a natural phenomenon for nowhere in the world is there such a beach that vertically touches the coast while its peak constantly changes shape, bending from one side to the other under the influence of the waves and sea currents. The Blue Flag flies over Zlatni rat and the lifeguard services instil

The new city beach of Šibenik has arisen where once old town Banj was located and it bears that name. When the sludge of the decade old black industry was cleaned up, the beach arose like a swan from the ugly duckling and immediately became the cult city venue. Šibenik Banj Beach is the only beach on the Adriatic coast where bathers ought to be given a waterproof camera before entering the sea. This is due to the spectacular view from Banj which is one of the best on the Adriatic and Mediterranean! The bather sees from a "fish perspective" and cinemascopic: Šibenik Bridge on the western sun, the channel from the

open sea to Krka Waterfalls and Skradin near Martinska, sailboats and yachts anchored or tied to berths in the port, rowers and optimists, gajetas (one-mast fishing boats) with nets on deck and sandolines of idle recreationists. The view shows a magnificent scythe cut view of medieval Šibenik from St. Michael's Fortress and falling into the sea, St. Jacob's cathedral at the edge of the old town and Dolac facades at the end of this beautiful and timeless scene and space. In Šibenik Banj, people swim and say "What a lovely city!" as if just discovering the city they were born in. Inasmuch, Banj is a Šibenik miracle!

security even to those who do not manage well in the sea. There are numerous possibilities of practicing sport in the sea. The deck chairs can be rented for 50 kn for the entire day and the parasols go by the same price. There is ready made food and a la carte food in the self-service system or classical food serving. The distance from Bol to Zlatni rat can be crossed by sea in a boat or by land in a tourist train. There are eight boats for Zlatni rat and the price for transport is 15 kunas per person in one direction.

The series of pebble beaches of the Makarska coastline, crowned by the shade of pine trees and a crystal clear sea, are the most beautiful on the Croatian coast and make this tourist region the most attractive of all. Dugi rat Beach in Brela, best known under the name Punta rata, is a widely known beach and the influential American magazine Forbes named it the most beautiful European beach and sixth most beautiful in the world. The pebbles there are naturally white and smooth and the beach is genuine. Its natural beauty has been ennobled by the human hand offering facilities to make the bather's stay more comfortable. The blue flag on Dugi rat was substituted by the one with EU stars and the remaining facilities demand high standards. A very visible

billboard indicates all the facilities of the beach from the WC to the big restaurant bearing the same name. Massage service is available for prices ranging from 100 to 260 kunas. The waters are fenced with buoys, bathers can rent deck chairs for the price of 25 kunas and parasols for the same price. Also available are pedalines, new ones for 70 kunas and old ones for 50 kunas. There is also a functional telephone booth. The beach is clean and better is regularly gathered. Besides guests visiting the beach, the inhabitants of Split are frequent visitors and find Brela Dugi rat Beach attractive, particularly during the weekends. It can be reached by car and the price for daily parking is 80 kunas. The parking is organized in a pinewood along the beach.

omiš

OMIŠ

NIKOLA VILIC

It is big, sandy, the biggest one in the area from Split to Makarska, but then again underestimated. The inhabitants of Omiš call it Big Beach but in the official books it is registered as Punta Beach. It is situated in the centre of the town, right in front of everyone, and wherever you set off from, you do not need more than a few minutes to get there. It is 400 metres long, and you do not need a GPS to find it. The beach has a classical offer, riding on a banana (10 minutes - 30 kunas), aquaplaning on scooters (10 minutes - 150 kunas), tracking on pedalines (60 minutes - 50 kunas), riding in a semi-submarine (30 minutes - 70 kunas)...

DUBROVNIK

Buža Beach is one of the most attractive beaches in Dubrovnik. It is situated at the foot of the Dubrovnik historical nucleus and the only way to reach the beach is through an opening (in Dubrovnik called: buža) and St. Stephen's door in the walls which can be reached through narrow town streets from Stradun and then behind the Dubrovnik cathedral.

It is a rocky beach with a concrete terrace and is not made for those who like to lie on a deck chair.

FOR YEARS, THIS HAS BEEN ONE OF THE RARE PLACES IN SPLIT WHERE YOU COULD TELL FOR SURE THAT IT WOULD BE PACKED EACH FRIDAY AND SATURDAY. DRESS TO IMPRESS IS THE UNWRITTEN RULE OF THE CLUB, AND NO SPORTS SHOES RULE IS STRICTLY FOLLOWED. THIS IS WHERE YOU'LL FIND ALL THE BEAUTIFUL WOMEN AND HANDSOME GUYS LISTENING TO HOUSE AND R'N'B HITS. IN THE EARLY HOURS OF THE MORNING, THOUGH, YOU'LL ALSO FIND OUT THAT CROATS LIKE MUSIC WITH A MORE BALKAN TONE, TOO.

HISTORICAL FORTRESS

Where legends seem alive

Sinj is the unofficial capital of Dalmatian Zagora. Archaeologists have found traces of life from five thousand years ago. The town was first mentioned under the present name in the mid-14th century. The first settlement was founded next to a 437-meter-high hill, which represents a natural fort.

AUTHOR TONI PAŠTAR

▶ Sinj is situated at the edge of the Sinj fields and it is the biggest and most fertile plain in the Dalmatian karst region which crosses the Cetina, a river with drinkable water from its source to its mouth.

After the Venetians and Hungarians, Sinj joined the Ottoman empire and remained there for 150 years. Not conciliating with the loss in the Cetina valley, in 1715 the Ottomans again tried to conquer Sinj. The local defenders miraculously won that battle known as the Little or Sinj War between Constantinople and Venice. They attributed the defence of their freedom to supernatural forces, to the support of Our Lady of Mercy to whom they had prayed, and which has since then been celebrated as Our Lady of Sinj. In honour of the memory of this victory, the Sinjska Alka knightly tournament was founded. Today Our Lady of Sinj and the Sinj Alka are two features of Sinj, its synonyms and a far well-known tourist attraction. What Sinj can offer are natural beauties, and when culinary resources are added, then the pleasure is completed.

MOUNTAINS

The mountains surrounding the Cetina Valley are Čemernica, Tropošnica, Visoka, Visočica, Plišivica, Svilaja, Mali and Veliki Kozjak, Kamešnica, Jankovo Brdo, Gnjat and Dinara as the crown of all. Most of that area is marked with mountain and cycling trails along intact and literally virgin nature.

CETINA

The Cetina River covers five-six smaller rivers which are its tributaries with numerous sources. All these water flows are drinkable water, and special gems are the sources of the Cetina, Rumina, Rude, Graba, Vojskove...

CULTURE AND HISTORY

An abundance of cultural events point out the historical view of life in this area. Remains of Tilurium, the 7th Roman Legion Camp in the Trilj locality of Gardun and the Sinj Old Town, and the Kamičak Venetian fortress is unavoidable. The Cetina Region offers the public three museums and one collection: The Cetina Region Museum in Sinj, Trilj Region Museum in Trilj, Sinj Alka Museum in Sinj and the Franciscan Monastery Collection in Sinj. The exhibits of Trilj Region Museum tell, first of all, the story of the life of the Roman 7th Legion of two thousand years ago. The Sinj Alka Museum tells the story of the Sinj knights' tournament, unique in the world, and as intangible cultural heritage it is protected and has been included in the UNESCO reference list.

FOOTBALL

More than one hundred years ago, an inhabitant of Sinj embedded a stela found in Gardun on the façade of the house he was building located in the present Vrlička Street. The headstone shows a young boy Gaj Laberian holding a ball in his hand. It was later proved and published in the official paper of UEFA that the boy was holding a football in his hand which also reveals that the Cetina region is the ancient homeland of football.

DELICACIES

The local specialties must be tasted. They are the unavoidable arambaši offered throughout the year, and they are best in the winter months when joined with koštradina, smoked and dried goat and sheep meat. During the summer season frog bones are a speciality for which the Cetina region is well-known, and particularly the locality of Otok. Besides young lambs roasted on a spit which is also a speciality there is šiša, lamb tripe. When it comes to sweets, it is unforgiveable not to try Sinj uštipke, and rafiole that are prepared in a particular way in Sinj, and then there is the kotonjada, a top dessert made from quince.

Visit Šibenik

► The medieval, Mediterranean monastery garden "Sv. Lovre" (St. Lawrence) in Šibenik was renewed and opened in 2007 after having been forgotten for almost one hundred years. It is an integral part of the Franciscan monastery of "Sv. Lovre" and an integral part of the program scheme of the Šibenik private high school.

The renewal project was performed by the Croatian landscape architect Dragutin Kiš, the winner of the millennium award Flora in Japan in 2000. This garden is a rare sight for it represents the only monastery garden of its kind in Croatia. It follows the well-known medieval scheme: cross trail, a small well in the center, a simple parterre arrangement encircled by boxwood and marvelous, old and fragrant roses. Medicinal plants and pot herbs are planted in four fields.

A special place belongs to the collection of thyme with beautiful red, purple, grey and light and dark green leaves. The combination of colors makes the collection a sensation. Another interesting sight are the capers.

Legend says that capers were brought to Šibenik by Juraj Dalmatinac. Capers are planted in the hollows of walls and remind us of that great builder.
